MESSAGE

OF THE

Mayor of the City of New York

TO THE

COMMON COUNCIL.

JANUARY, 1873.

NEW YORK:

WEBSTER & FISHER, PRINTERS AND STATIONERS,
No. 19 CHATHAM STREET.

1873.

MAYOR'S OFFICE, }
NEW YORK, January 6, 1872. }

To the Honorable the Common Council :

In assuming again the duties of the Chief Executive of the city, I cannot but express the satisfaction I feel as I recognize in the Common Council, upon which rests so much of the responsibility of the government, men of experience, possessing the confidence of the people, and animated by the single desire to discharge, in the public interest, the duties that devolve upon them. The power with which the Common Council is vested will, in your hands, I am satisfied, be applied to an honest endeavor to improve and elevate the government, and your influence for good will, I trust, be felt in the action of all the city departments, and each of the officers connected therewith.

Happily, the circumstances attending my election are such that I am, in the discharge of my duties and the distribution of patronage, freed from any trammels or affiliations of a partisan character. It will be my constant desire to co-operate with you in all that concerns the welfare of the great community that we represent. At all times observant, as a citizen, of the course of public affairs, I am not surprised at the growth of the business of

the city since I last addressed the Common Council from this place. The affairs of the city are of imperial extent and variety, and in their present condition require for their proper conduct our united energies and all the wisdom we can command. By the charter, it is the duty of the Mayor to recommend to the Common Council all such measures connected with the "security, health, cleanliness, and ornament of the city, and the protection and improvement of its government and finances, as he shall deem expedient."

In my judgment there is little, if anything, connected with the government of the city which is not susceptible of very considerable improvement. On taking possession of the government from our predecessors, we find it in a state of disintegration, and the interests of the people in every department wasted. Notwithstanding the numerous and extravagantly paid officers and subordinates, official duty has been neglected, and demoralization has assumed a growth which will require careful and persistent effort to eradicate. In a great degree we have to rebuild the entire governmental edifice.

One simple measure is, at the outset, imperatively demanded, and should receive immediate attention: that of the consolidation of the City and County Governments. The separate management of our city and county affairs has proved both injurious and expensive. No benefit can, in any sense, be secured by continuing this divided admin-

istration. The city and county should, for all business and governmental purposes, be represented by but one legislative body.

Upon examining the laws which relate to the government of the city, I find doubts, difficulties, and confusion. The Charter of 1870, amended in 1871, is popularly supposed to contain a full specification of your powers, and of the powers and duties of the Mayor, and of the departments. This Charter declares, section 2, that in you is vested the legislative power of the Corporation; and section 23, that in the Mayor and in the departments is vested the executive power. Such a system of government may have been intended by the Charter; it is not, however, the system which has governed the city since it was enacted. We have had form, not substance—a Legislature in name, but not in reality.

Everything has been done as though we had no legislative body; as if no Common Council existed as part of our government. While in theory the executive departments are subordinate to the Mayor, they have been, by law, made practically independent of him, and have absorbed to themselves all the legislative power, thus leaving the Common Council, the direct representatives of the people, without influence, and almost without functions. In 1872 there was raised, for the purposes of the government of the city (by taxation, exclusive of the county), \$23,318,637.12, and on bonds, upwards of \$5,000,000.

All this money was raised, appropriated, and expended without any reference to the Common Council, without the sanction in any way, or to any extent, of the legislative branch of the government. In what manner the revenues of the city should be expended was a matter with which the Council was not permitted to interfere.

The executive power usurped the legislative, and when this usurpation was perfected, responsibility in the City Government ceased. The supremacy of the departments culminated when the power of removing the heads was practically abolished by the present Charter. Our executive officers then became absolute rulers, and, under this rule, our government became a public scandal. This should no longer continue; the legislative power should be restored to the Common Council. Elected by the people, in a sense which could not be predicated of any election in the city during the past twenty years, you should act for the people, and for no particular party political or otherwise. Where there has been so much disorder, reform is neither easily nor speedily accomplished. The work before us is formidable, but it must be undertaken. To the best of my ability, I shall endeavor to perform my part. Upon your co-operation I rely.

Your first duty should be to see that the legislative power of the Government is in reality, and not merely in name, vested in you.

Wherever you find this power to have been assumed by the departments without authority, a change should be effected. An examination will, I am persuaded, satisfy you that, even under existing laws, your powers are by no means so limited as the action of your predecessors would indicate. Such an examination is necessary not only with the view of ascertaining existing rights, but also for the purpose of determining existing defects, and the measures required to provide the proper remedies. In the executive branch of the Government there must be accountability. Under the provisions of the Charter the heads of departments are practically accountable to no one. Once appointed, they can only be removed upon articles of impeachment presented by the Mayor, and after formal trial before a full bench of the Court of Common Pleas. My conviction is, that this machinery was devised by designing men, not for the purpose of securing the removal of improper officers, but to render such removal impracticable, if not impossible. At present, the Mayor can exercise but little control over the departments. His power has been limited to little more than the privilege of calling upon them to furnish him, in such form, and within such time, and under such rules as he may prescribe, reports of their operations and actions. By the express terms of the Charter the Mayor is held "responsible for the good order and efficient government of the city." With this serious responsibility attached to the office, I enter upon the Mayoralty to find that every officer through whom the govern-

ment must be conducted is virtually beyond my control. All the heads of departments, and also the Chamberlain, who, although only the head of a Bureau of the Finance Department, is appointed by the Mayor, are entitled to hold their respective offices beyond my term, under appointments made by my predecessor. With the subordinates in the various departments, many of whom, as is well known, are the growth of an era of our government with which we have no sympathy, neither the Mayor nor the Council are permitted to interfere. The honor awarded to the Mayor of a seat at the Police Board, and at the Board of Health, on account of the conditions attached thereto, affords but little opportunity to influence, or to secure the efficient working and administration of either of these departments. One of the strongest illustrations of the inharmonious and improper organization of the executive power has received recent enforcement by the resignation of the Corporation Counsel, and the appointment by the out-going Mayor of his successor, to hold over to a period beyond my term of office. When the importance of the office of the law adviser of the city is taken into consideration, the fact that with him rests the appointment of the Corporation Attorney and Public Administrator, the necessarily confidential relation he should bear to the Mayor, and how much discretion and power necessarily rests with him to aid or impede the policy of the government, the eminent impropriety of the law which prevents the incoming administration from appoint-

ing that officer is made glaringly manifest, and an amendment in that particular cannot be too early passed by the Legislature.

These various defects in the government should be remedied; but, in endeavoring to accomplish this, care must be taken that no change is accepted which would be productive of greater evils. The municipality of New York is intended to be and ought to be a government by and for the people of the city. All mere political devices, in the form of territorial divisions or metropolitan schemes, should be discountenanced. The people of this city have shown their ability and determination to govern themselves, and upon us they rely to maintain and defend their municipal rights. From general and State politics the government of the city should, as far as possible, be removed. Efficiency, honesty, and economy are the characteristics by which it should be distinguished.

The legislation necessary to secure improvement in the government of the city should be promoted and approved by the corporate authorities, and by them officially presented to the Legislature. Legislation sought for by any single department for its own purposes, to extend its own powers, must be prevented. The spectacle of last winter of the heads of some of the departments, with a lobby of retainers, besieging the Legislature during the whole session to keep themselves in office, and to retain their immense emoluments and patronage, should no longer be tolerated.

All legislation for corporations or individuals, designed to benefit particular interests at the public expense, should be determinedly opposed. Special legislation has been exceedingly detrimental to the city, an instrument of gigantic plunder. This channel for the advancement of private and individual interests at the expense of the public must be closed. Our laws should secure equal rights and remedies for all.

There are too many departments and boards in the city, too many chiefs placed at the head of some of these, too many bureaus in some of the departments, and too many supernumeraries and sinecures in the bureaus.

Several of the departments, and the bureaus therein, should be consolidated. The salaries of all heads of departments should be revised and fixed by the Common Council; and if the salaries of the subordinates in the departments are as at present fixed by the heads of such departments respectively, they should in every instance be subject to the approval of the Council. All Boards that are separate from departments, with the exception, probably, of the Board of Apportionment, should be abolished. If this latter board is continued, its constitution should be changed. Executive officers sitting thereon, and voting the amounts they are to have at their disposal to expend, is an anomaly which manifestly ought not to continue. No mere executive officer should have such power. It

should be placed exclusively in the hands of those of our city officers whose duty it is to watch and restrain.

Without intending any reflection upon these officers, in my judgment no good reasons exist why the Commissioner of Public Works and the President of the Department of Public Parks should be members of the apportioning board. It was originally thus arranged to enable certain men who then held these offices the better to carry on the gigantic schemes of public plunder which they were working for their own personal benefit. Instead of these officers, there should be substituted, if it is wise to have such a board, the Presidents of the Board of Aldermen and Assistant Aldermen. The presence of the Comptroller is indispensable. The concurrent vote of all the members should no longer be necessary to give validity to their acts; the vote of the majority, composed of elected officers, should suffice. The proceedings of the board should be made subject to the approval of the Common Council. All heads of departments and the Chamberlain should be subject to removal by the Mayor for cause. The Mayor should be subject to removal by the Governor for cause, in the same manner as sheriffs and other public officers now are.

Let us not, however, delude ourselves into the belief that any mere revision of the Charter is adequate to protect us from the evils from which this city has suffered, and still is suffering. The laws which relate to the

government of the city are so numerous, so full of details, and often so contradictory and incongruous, that their proper administration is almost impossible. The ordinances of the city are also in inextricable confusion. Since they were last revised, special legislation for the city has been so extensive that one cannot, without considerable labor, ascertain whether a particular ordinance remains in force. It is, no doubt, in a great measure owing to these causes that so many of the proceedings of the Common Council, for several years past, has been held by our Courts to have been irregular and illegal, throwing the burden of expensive local improvements upon the city at large, to the extent of millions of dollars, instead of leaving them to be borne by those whose property has been increased in value by such improvements. It is necessary, therefore, that all special laws now in force which apply to the city, as well as the city ordinances, should be revised by some one competent to perform the duty.

And while these various measures are being promoted, others of a practical character require to be devised to secure efficiency and economy in the execution of the various public works now in progress, or which are about to be entered upon by the city. Whatever undertakings may be necessary to advance the prosperity and secure the well-being of the community should be proceeded with, and conducted with vigor and economy. How best to accomplish this for the public weal, and not for the

benefit of mere speculators or private interests, is no doubt difficult to determine ; but, whatever the difficulties in the way may be, they must be encountered and overcome.

The system which has of late grown to such gigantic proportions, of permitting the heads of some of the departments to employ and the right to retain at the expense of the city, but subject to their exclusive control, thousands of laborers upon the public works, must be speedily and firmly dealt with. The methods by which employment is obtained by those seeking it at the hands of the departments is often humiliating to honest labor, and naturally results in organizing bands of political retainers, under the control of the heads of particular departments, for their own purposes. We have felt the pernicious influence which has resulted from the persistent efforts, made through such instrumentality, to secure personal and party influence and advantage. We no longer want mere political operators at the heads of departments, or in charge of influential interests of the city.

Our public works must be proceeded with, under a well-devised system of contracts. In every contract, the work to be executed should be so specifically set forth that efficiency in its performance should, to a certainty, be secured, and, in addition to all this, an improved system of inspection of all our public works is imperatively demanded. Only such persons who have practical knowledge of the description of work they are appointed to inspect, should

be placed in such a position of trust. Honest contractors should no longer be harassed with a double set of inspectors to accommodate political favorites, and it should no longer be our reproach that, with an expenditure of millions of dollars each year upon the works connected with the formation, improvement, and repairs of our streets and avenues, so many of our thoroughfares are still found in a disgraceful condition.

Under a law passed in 1870, the Commissioner of Public Works was authorized to change the Croton Aqueduct from One Hundred and Thirteenth street to Ninety-third street, a distance of twenty blocks, from a structure of masonry to iron pipes. This work has been going on for more than two years, not by contract, but by the direct employment of large numbers of men by the Department of Public Works. Up to the 26th December, 1872, the enormous sum of \$2,104,628.04 had been expended on this work. I have no doubt it could have been executed much more expeditiously under a proper contract, and at about one-half the cost. The law does not limit the amount of expenditure for this work, the Comptroller being bound to answer the requisitions of the Commissioner of Public Works to any extent that he may demand. It was generally supposed that gross and extensive frauds were committed in connection with this work. Recent developments show that the pay rolls of the work contain names of men which are certified by those employed by the department as having performed labor and as entitled

to receive pay for the same, while in fact these men had done no work and were entitled to no money. It is very difficult for the paying officers to ascertain and detect these frauds. The principal knowledge they have as to those entitled to pay is contained in the roll, which is assumed to be correctly and honestly certified, and in the identification of the person by the foreman.

I recommend that this work be examined by competent engineers, an estimate of the cost of completing it made, and that it be completed by contract. Works only of a special character should be made a future burden upon the city, such as bridges, tunnels, new works connected with our water system, and others of a like description. In view of recent calamities by fire, it is a matter of vital importance that a sufficient flow of Croton water be carried to all parts of the city, so as to provide for any emergency which may arise, and, if expedient, that some system be devised of utilizing, for the purposes of our Fire Department, the water of the Hudson and East rivers. Where a sufficient supply of Croton water has not been already carried through the city, the work necessary to secure this should be proceeded with at once. The expense of the care, maintenance and repair of works which are already, or may hereafter be, completed, should be provided for out of the annual taxation. The alarming rapidity at which our debt and our annual burdens have increased is, so far as my knowledge extends, without precedent in the history of any city. During the past six

years we have had no undertakings very costly in themselves to provide for; no works of any magnitude have been entered upon, except in connection with our water system, our docks and parks, our roads, and the Brooklyn bridge. In connection with these several undertakings we have paid, during the past six years, nearly \$23,000,000, while our debt, city and county, in the same period, has increased from \$45,187,770.50 to \$118,855,229.82, and our annual taxation from \$16,950,767.88 to \$32,036,290.51. It is difficult for us to realize the magnitude of this increase.

Through the instrumentality of special legislation, fraudulent schemes have been converted into legal obligations, and our debts and our burdens, thus increased, we have had to provide for. The successful manipulation by which these burdens have been imposed upon us, have added strength to that system of plunder, of which we have been so long the victims, and the prejudicial influences of which have been felt in all matters affecting the well-being of this community. A faithful administration of our finances is calculated to exert a powerful influence on the good order and government of this city. Our late financial administration, on its sudden termination, left as a legacy to its successor an immense mass of floating indebtedness, the accumulated arrears of the neglected business of the various departments for the past five years, amounting to many millions of dollars, a considerable portion of which was of a very complicated and

fraudulent character. Upon the new administration of the Finance Department largely devolved the severe and most unpleasant duty of sifting and examining these various claims, paying those which were just, and of rejecting those tainted with excess and with corruption. It should be borne in mind that it was necessary to perform this labor concurrently with the transactions of the great volume of the daily business of the department. I am satisfied the work of dealing with the large arrearages of the past, so far as it has proceeded, and there has been no unnecessary delay, has been discharged by the Comptroller with the sincere determination to administer impartial justice. That such a course of action, considering the nature of many of the claims dealt with, should sometimes lead to disappointment, is not to be wondered at. That there should be some opposition to the incorruptible officer whose action caused such disappointment was what might be expected. The Comptroller has had formidable difficulties to contend with. Upon assuming the management so unexpectedly forced upon him, he found the head of the city government, and most of the officers and subordinates of its departments, in entire sympathy with those corrupt leaders, whose schemes it was his duty to counteract and defeat. Employes of the city connived to secure the payment of improper claims, and dishonest persons resorted, and are resorting, to every method to get these claims paid. The business of the city had fallen largely into the hands of the very worst classes, and, until

recently, respectable dealers hesitated to do business with the departments. To contend with such opposing agencies, was a task often delicate, always disagreeable, sometimes full of danger, but it has been discharged with marked fidelity to the public interests, and has resulted in checking the current of official profligacy, and in compelling at least some improvement in the various departments.

A carefully prepared statement shows that, while the taxation for 1871 was limited by law to two per cent. on the valuation of that year (\$1,076,253,633), in addition to the excess of the State tax over 1870, the actual expenditures of the City and County for 1871, including obligations amounting to upwards of \$1,837,000 yet unpaid, and estimated at say \$1,500,000, but not including any expenses of new works, equalled a rate of 3.369 per cent. on the valuation of 1871—

Being.....	\$36,262,589 41
------------	-----------------

The expenditures of the year 1872 are less than 2.81 per cent. on the same valuation of 1871, being.....	30,224,799 64
--	---------------

Showing a reduction of 1872 from 1871, of.....	\$6,037,789 77
---	----------------

A just comparison, however, of the expenses of the years 1871 and 1872, requires there should be added to the

reduction above stated the following items, which are included in the expenditures of 1872, and not in 1871, to wit:

1st. Excess of State tax, 1872 over 1871..	\$975,695 50
2d. Excess of interest on City and County obligations, 1872 over 1871.	819,477 12
3d. Amount paid, and estimated to be paid, for Fourth avenue improvement, and other purposes, unknown in 1871..	905,903 66
	<hr/>
	\$2,701,076 28

Thus showing, by a fair comparison, that the expenses of 1872 were less than 1871 by \$8,738,866.05.

This result is most encouraging, and indicates clearly what can be accomplished when there is a desire and determination to secure efficiency and economy in the administration of the Government. For the year 1873 I find that the rate of taxation has been already fixed at 3.22 per cent. on the valuation of 1872. The increased rate is required to meet the excess of the quota of the State tax for 1873 over 1872, amounting to \$4,016,703.49. Of this amount \$3,644,387.72 is required to be contributed by this County to meet a deficiency in certain Sinking Funds of the State. At the late session of the Legislature, an act was passed authorizing the submission to the people of the

question whether a deficiency of \$6,500,000 in these Sinking Funds should be paid by the issue of bonds. This submission the State Comptroller has decided to be unconstitutional, and requires that the amount of it be raised in 1873 by taxation. The proportion of this deficiency, as it is called, that will fall upon this City and County, is the above sum of \$3,644,387.72, and accounts for the heavy taxation for 1873. The State Sinking Funds are, by the constitution, made inviolable. How is it that these inviolable funds have been taken from the treasury? As the City has now to make up its share of the misappropriated money of the State, in addition to the embezzlements of members of its own government, I think the taxpayers ought, at least, to know why this additional burden is laid upon them. But even with this unexpected amount to provide for, the rate of taxation for 1873 is believed by the Comptroller of the City to be unnecessarily high, and that the same ought to be revised and reduced.

To accomplish this, legislative authority is required. With a united administration sustaining and strengthening the Finance Department, much can be done in the interest of economy and good government. It is the desire of the great body of the community to sustain this department, the successful management of which has been principally instrumental in securing all the beneficial results that have thus far been obtained. Naturally, however, the politicians who, for political purposes, think it necessary they should control, or, at all events, influence

the administration of the treasury, are clamorous for a change, and they are supported by the holders of fraudulent claims, who are willing, in order to secure a percentage of the nominal amount of their corrupt demands, to pay over the balance in furtherance of any measure whatever, which will open to them the treasury; and also by those who, fearing that under the present administration, a day of reckoning will come, when they will be called upon to make good to the treasury the sums they have fraudulently received therefrom, are ready to contribute a large proportion of what they have thus obtained to save the remainder.

We want no political instrument at the head of our Finance Department; no one who can be influenced by any other consideration than fidelity to the trust he undertakes. This department should have the exclusive control of all the financial concerns of the Corporation. Through it all claims against the city should be paid after they have been duly audited and adjusted. I shall support the Comptroller in his efforts to have such an administration carried into practical operation. In the Finance Department there is a bureau charged with the duties of receiving all moneys paid into the treasury, and for the payment of money on warrants drawn by the Comptroller, countersigned by the Mayor, the chief officer of which is called the Chamberlain. This officer is not appointed by the Comptroller, but by the Mayor. The present incumbent is Mr. Francis A. Palmer, President of the Broadway

National Bank. He received his appointment from my predecessor, and holds the office, in virtue of this appointment, for a period of four years from the sixth day of January, 1872. When the present charter was passed the office was filled by Peter B. Sweeney, a fact that accounts for the significant omission, in that instrument, of any provision relating to the removal of the Chamberlain. This is the only officer of the city for whose removal from office the Charter makes no provision whatever. The Broadway National Bank, of which the Chamberlain is president, is by him continued one of the depositories of the city and county funds. The Chamberlain has the authority to designate the depository bank under the provision of chapter 623 of the Laws of 1866. By the first section of this statute the Chamberlain is required to designate not less than three banks in which all the money of the city and county shall be deposited, and he may, by notice in writing to the Comptroller, from time to time, change the banks so designated. The immediate predecessor of the present Chamberlain had, under the authority of the statute, designated the National Broadway Bank, the Tenth National Bank, the National Park Bank, and the Union Trust Company, as the depositories of the city and county moneys. These several banks agreed to pay on the daily balances at the credit of the city and county interest at the rate of four per cent. per annum. This interest as it accrued belonged to the city and county as much as the principal ; the Chamberlain has no right or authority

to appropriate or direct it to any purpose whatever. The two Chamberlains who preceded Mr. Palmer pretended a liberality, in which there was no credit, by handing over to the treasury the balance of interest at the rate stated, after deducting therefrom certain expenses, which they assumed to pay under authority of the second section of the statute of 1866, and which included, since the passage of the Charter of 1870, a sum of \$10,000 per annum to the brother of Peter B. Sweeney, as Deputy Chamberlain, an office to which he was never lawfully appointed, and the duties appertaining to which he never discharged.

In December, 1870, shortly after the present Comptroller was placed at the head of the Finance Department, he advised the then Chamberlain that, as there was no law which had appropriated the interest on the city and county deposits to that officer, or which gave him personally any right, or color of right to it, the practice which had been followed of the Chamberlain drawing the interest of the depository banks must cease. And on the same date, the Comptroller directed the several depository banks that, at the end of each month, they were to add to the credits of the accounts of the city and county, on their respective books, the amount of interest which accrued upon the daily balances at the credit of each account. With his request the Union Trust Company and the Park National Bank readily complied. From the Broadway National Bank, and the Tenth National Bank no reply was received, and, although re-

peatedly urged by the Comptroller to advise him as to their compliance with his direction, they have persistently failed to do so. The interest which has accrued to the city during the year 1872, on the balance in the banks, amounts to about \$200,000. Both the Park National Bank and the Union Trust Company are prepared to pay over to the city the interest which accrued in the business in their banks respectively, and have been only prevented from doing so by the present Chamberlain refusing to sign the proper transfer warrants. After the action of these banks in the matter of interest, the Chamberlain withdrew the city and county deposits from them, and has designated as a new depository the Tradesmen's National Bank. In this bank he has deposited, of the public funds, \$800,000. He kept, until the last few days, a deposit in the Tenth National Bank of \$2,100,000, which has now been reduced to \$250,000. The reduction was made pursuant to a notice by the Comptroller upon the facts coming to his knowledge that, on the 3d of October last, the individual deposits in that bank amounted to \$2,409,030.26, of which amount there was deposited by the City and County of New York \$2,100,000, showing the total of all other deposits in the bank to have been only \$369,030.26. The balance of the city and county deposits, which varies from two to seven millions, the Chamberlain retains in his own bank, the Broadway National. An attempt was some time since made by the Chamberlain to appoint, as his deputy, his

nephew, the President of the Tenth National Bank, at a salary of \$10,000, which the Chamberlain claims the right to pay out of the accrued interest, belonging to the city. It appears to me that, in view of the above facts, it is highly important that the Chamberlain and his pretended deputy should not be at the same time the officers of the depository banks, as their interests as stockholders and managers in the banks under their charge are naturally antagonistic to the interests of the city. An examination has satisfied me that the property and franchises of the city can be managed to better advantage. Their condition is another instance of the utter neglect that has characterized the government for the past few years.

It has, in the past, been customary for favored politicians to get the Common Council or the Board of Supervisors to lease their property, at an enormous rent, for city purposes, or for armories and drill-rooms. A considerable portion of the property so leased to the city is unoccupied—part never has been occupied, and the city is paying heavy rents therefor. Proceedings should be at once taken to set aside all leases under which excessive rents are claimed, or in which fraud can be shown. In all cases where this relief cannot be obtained, the various premises should be rented to the best advantage. The franchises belonging to the city should be disposed of on the highest terms which can be secured. Railroad companies here-

after applying for a franchise should pay to the city therefor a stated rent.

The market property belonging to the city, which is unproductive, should be at once sold. Those of the markets which are supported and needed by the public should be continued, but they ought to be rebuilt and made worthy of the patronage they receive. This work should be undertaken either by the city or by private enterprise—the city leasing the property upon condition of its being used for market purposes upon a plan approved by the city. That sink of political corruption—the New County Court-house—should be finished. The present Commissioners having, as I am advised, no legal standing, should not be longer allowed to interfere with it or contract any more obligations on account of it. Specifications should be prepared and the work completed under a strict supervision. A sum sufficient to provide for this work can be included in the annual estimate. No further bonds should be issued on this account. As an example of wasteful extravagance, I have already been called upon to sign warrants for a monthly pay roll of over \$7,500 for janitors, cleaners, etc., of the County Court-house and the two other county buildings in the Park, which is equal to an annual expenditure for this service of over \$90,000.

The question of rapid transit between the extremes of the city has long occupied the public attention. Various plans have been proposed by private enterprise to secure this

desirable result, and for this purpose several charters have been granted by the Legislature of this State, all of which have failed to command public support. In view of these facts, and the increasing necessity for the work, the aid of the city to secure its execution will probably be invoked. In such an event it will be your duty to see that any plan submitted for your co-operation is adequate to provide for the end desired, and that the city is properly secured for the payment of interest on the outlay and the reimbursement of the principal when due. The whole subject of State taxation should receive your early attention. As already stated, the State tax for 1873 is \$4,016,703.49 in excess of 1872. The circumstances attending this increase show the urgent necessity there is for vigilance on the part of the people in attending to the acts of their officers, whether State or local. In 1872 the total State tax imposed was \$19,580,882.30, of which New York City and County is required to pay \$9,761,752.81, and all the other counties in the State together only \$9,819,129.49. Thus, in addition to providing for the heavy burdens attending the administration of its local government, New York City has to contribute 49.85 per cent. of the entire amount of taxes raised for the government of the State, showing conclusively that in the matter of the State tax this city is most unjustly dealt with. It is absurd to pretend that the property of this city is about equal in value to the entire property in all the remaining portions of the State. The valuation of taxable property in this city made last year by the Commissioners is :

Real estate.....	\$797,125,115
Personal property.....	306,949,422
	<hr/>
	\$1,104,074,537

While the value of taxable property of all other parts of the State is estimated by the State Board of Equalization at:

Real estate.....	\$907,073,000
Personal property.....	140,300,812
	<hr/>
	\$1,047,373,812

I am satisfied that if the same principles were adopted throughout the State in estimating the value of property for the purpose of State taxation which has been adopted in the city in estimating the value of property for the purpose of local taxation, we should be relieved of a large portion of that increasing annual burden which we are called upon to bear under the cover of the State tax, which is this year nearly ten millions of dollars. The time has arrived when the entire system of State taxation should be revised. Through the operation of this system our city, which pays this year \$3,108,700 out of its local taxation for the support of its schools, is also compelled to pay for the support of schools in other parts of the State \$761,553.84. We are also compelled to contribute disproportionately to the support of various institutions

throughout the State, under the guise of charities. A considerable portion of the matters which find their way into the Annual Supply bill of the State, and which are increasing yearly to a most alarming extent, ought to be paid out of the moneys of the various localities, and not supported by the moneys of the State, which again are largely derived from this city.

By law, the City and County of New York is required, on or before the 1st of December of the year in which it is levied, to pay its quota of the State tax in full, without any abatement whatever, and, unless the amount is so paid, the county is liable for interest. In most of the other counties of the State, the law provides that that portion of the State tax which remains unpaid at a certain date shall be returned to the State Comptroller, who credits the county with the amount so returned as though it had been paid. A considerable portion of the quota of the State tax for this county remains unpaid to the County Treasury at the time prescribed by the law for its payment into the State Treasury. A large amount of this is arrears on personal property, and is uncollectable, the persons taxed not being found, or, if found, not able to pay, while the State requires payment in full from the city of its proportion of all such taxes. The arrears of personal taxes uncollected in this city since 1852 amount to \$6,968,318.36. The disproportionate amount of taxation thrown upon this city has been, for the last few years, acquiesced in by those who have misrepresented us in the State Legislature,

as part of their schemes to secure such legislation as they wanted for their own purposes in this city. It is time this should cease, and that the city be placed upon a just and proportionate valuation with the other parts of the State, both as respects valuation and the methods of collecting the tax.

In considering these questions it would be well to examine into the suggestions which have been made and so forcibly urged upon the attention of the Legislature to exempt from taxation personal property except such as is visible and tangible. After a full investigation and careful consideration of the subject, I am convinced that the city would be considerably benefited in all its interests, if effect were given to this recommendation. I earnestly recommend that an immediate investigation be proceeded with, under your supervision, into all matters in reference to which there is reason to believe the city has been imposed upon by the fraudulent or wrongful acts or wilful neglect of its officers, or of any other person or persons whatsoever, that it shall be your care to see that the necessary proceedings are forthwith instituted, and vigorously proceeded with, to compel restitution of all moneys and property of which the city has been defrauded, and to make good all losses it has sustained through fraudulent or wrongful acts or wilful neglect. Our criminal prosecutors, both State and county, we must hold to a diligent and impartial discharge of their duties.

While presenting to your consideration these special matters, I trust you will not fail to give your best attention to the working and administration of all the various parts of our city government. Our whole system needs revision. To us the trust has been committed to accomplish this. In the administration of this trust, we must see that the bonds of this city, as they become due, are provided for; that all just and honest debts of the city are examined into and paid; and all exorbitant and corrupt demands are resisted, and all dishonest and fraudulent claims defeated. It is our duty to consider well the various acts the execution of which go to increase the obligations of the city; to hold the various departments to a strict accountability; to reduce as far as possible all expenditure, and to make an earnest effort that the reforms the people so seriously demand, and which we have been elected to secure, are, by our administration of the government, accomplished.

W. F. HAVEMEYER.

LAW DEPARTMENT,
OFFICE OF COUNSEL TO THE CORPORATION, }
NEW YORK, January 23, 1873. }

To the Board of Aldermen:

GENTLEMEN—I am in receipt of your resolution adopted January 16, 1873, as follows;

“ *Resolved*, That the Counsel to the Corporation be and he hereby is requested to advise this Board, in view of recent decisions of the Courts in this State:

“ 1. What power, if any, exists to assess upon property benefited, the expense of regulating, grading, paving, flagging, or otherwise improving any of the streets, avenues, or public places, in the city; of setting or resetting curb therein; of guttering the same, and of building sewers; and what acts or proceedings, specifying the same in detail, require to be performed or taken, so that said works may be executed and the assessment therefor imposed, that the same cannot be vacated.

“ 2. What power, if any, exists to assess upon property benefited, the expense of repaving any street, avenue or

public place in this city; and what acts or proceedings, specifying the same in detail, require to be performed or taken, so that such repaving may be executed and the assessment therefor imposed, that the same cannot be vacated."

The power of the Corporation to regulate, grade and pave streets, and construct sewers therein, and assess the property benefited for the expense thereof, was conferred by section 175, chap. 86, Laws of 1813.

That power still exists, and may be exercised by the Corporation, except as to streets, concerning which other special provision has been made, provided that the restrictions relating to the *mode* of exercising such power, which have been enacted in more recent laws, are observed by the corporate officials.

The limitations upon the power of the Common Council to direct local improvements, and the assessment of property for the cost thereof, are found in the Charter, in the sections cited as follows:

1. The ordinance or resolution must be adopted by the votes of three-fourths of the members elected to each Board of the Common Council. (Sec. 18, chap. 137, Laws of 1870.)

2. The introduction of such ordinance must be published by the Clerks of the respective Boards. No vote

can be taken thereon in either Board until such notice of the introduction thereof in that Board shall have been published at least three days.

3. Whenever a vote shall be taken thereon, in either Board, such resolution shall be published, with the yeas and nays, and the names of the persons voting for and against the same, before such resolution shall be sent to the other Board, or to the Mayor. (Sec. 20, chap. 137, Laws of 1870.)

The last-named section seems to require eight publications of the resolution before final approval by the Mayor, viz., three publications of the introduction of the resolution in the Board first acting thereon before any vote is taken therein in relation thereto; one publication of the vote thereon before the resolution is sent to the second Board; three publications of the introduction thereof in the second Board before any vote is taken thereon; one publication of the vote therein before the resolution be sent to the Mayor for approval.

By the act, chapter 381, Laws of 1865, the Croton Aqueduct Board was authorized to devise a plan for the sewerage of the entire city, dividing the same into sewerage districts.

Upon the completion and filing of the plans for any district, the said Board was authorized to proceed to con-

tract for the whole or any portion of the work in said district.

Power to construct sewers, without any action of the Common Council in relation thereto, was thus conferred upon the Croton Aqueduct Board, and is now vested in the Department of Public Works, which has succeeded to the functions and duties of the Croton Aqueduct Department.

The power to direct repavement and order an assessment to be laid for the expense thereof, is also vested in the Corporation. (*Rhineland v. Mayor*, 24 Howard, 304 ; *Matter of Lewis*, 54 Barbour, 82.)

The Legislature has, however, limited that power by enacting that no patent or special pavement may be laid in any street, etc., which has been once paved, and the expense thereof paid by assessment, unless such pavement be petitioned for by a majority of the owners of property on the line of the proposed improvement, and the ordinance be approved by the Mayor. (Sec. 14, chap. 383, Laws of 1870.)

Other limitations are prescribed in various statutes, which define the method of contracting, of apportioning

the assessment and confirming the same, the notices to be published in relation to letting the contract and confirming the assessment.

These provisions, however, relating only to the powers of the executive departments, the assessors, etc., need not be recited in this communication, which relates only to the powers of the Common Council.

I, therefore, advise you :

1. That you have power to direct, by your resolution, the regulating, grading, paving, and flagging of streets, avenues and public places ; also, to order the setting and resetting of curb therein, and guttering the same ; and to direct that an assessment be laid for the expense incurred for such work, provided that the ordinance be passed and notice thereof published as herein above specified.

2. That the power to construct sewers, in accordance with the plans duly filed, is vested in the Department of Public Works, which may proceed to construct such sewers without any action of the Common Council authorizing or directing such construction.

3. That assessments for repaving may be laid in the same manner as assessments for paving, provided that, in

all cases of repavement, no patent or special pavement can be laid, unless petitioned for by a majority of the owners of the adjoining property, nor unless the Mayor approves the resolution directing the work.

I remain, gentlemen,

Your obedient servant,

E. DELAFIELD SMITH,
Counsel to the Corporation.

The Corporation of the City of New York.

COMMUNICATION

FROM

THE COMPTROLLER,

TRANSMITTING

Report of the Auditor of Accounts,

BEING DETAIL OF ALL

WARRANTS DRAWN ON THE CITY CHAMBERLAIN

FOR THE

QUARTER ENDING DECEMBER 31, 1872.

Board of Aldermen,

JANUARY 3, 1873.

DOCUMENT No. 3.

NEW YORK:

WEBSTER & FISHER, PRINTERS AND STATIONERS,

No. 19 CHATHAM STREET.

1873.

DOCUMENT No. 3.

BOARD OF ALDERMEN,

JANUARY 30, 1873.

The following message from the Mayor, transmitting a communication from the Comptroller, with the Fourth Quarterly Report of the Auditor of Accounts, being a detailed statement of all warrants drawn on the City Chamberlain for the Quarter ending December 31, 1872, was received, laid on the table, and one thousand copies ordered to be printed in document form.

JOSEPH C. PINCKNEY,

Clerk.

EXECUTIVE DEPARTMENT—CITY HALL, }
NEW YORK, January 28, 1873. }

To the Honorable the Common Council :

I herewith transmit to your Honorable Body the Auditor's Report of all accounts audited and allowed by the Finance Department for the Quarter ending December 31, 1872, as received from the Comptroller.

W. F. HAVEMEYER,

Mayor.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,

January 8, 1873.

Hon. WILLIAM F. HAVEMEYER, *Mayor*:

SIR—In conformity with the provisions of law contained in Section 35, Chap. 574, Laws of 1871, I herewith transmit a Statement in detail of all accounts audited and allowed by this Department on account of the City of New York, for the Quarter ending December 31st, 1872, and for which warrants have been drawn upon the Chamberlain.

Respectfully,

ANDREW H. GREEN,

Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,

January 7, 1873.

Hon. ANDREW H. GREEN, *Comptroller*:

SIR—Herewith is submitted a statement in detail of all accounts audited and allowed on City and Trust Accounts, and for which warrants upon the Chamberlain have been drawn during the Quarter ending December 31, 1872.

Very respectfully,

ABM. L. EARLE,

Auditor of Accounts.

COMMUNICATION

FROM

THE COMPTROLLER

TRANSMITTING

Report of the Auditor of Accounts,

BEING DETAIL OF ALL

WARRANTS DRAWN ON THE CITY CHAMBERLAIN

FOR THE

QUARTER ENDING MARCH 31, 1873.

Board of Aldermen,

APRIL 4, 1873.

DOCUMENT No. 8.

NEW YORK:

EVENING POST STEAM PRESSES, No. 41 NASSAU STREET, CORNER LIBERTY.

1873.

DOCUMENT No. 8.

BOARD OF ALDERMEN,

APRIL 14, 1873.

The following message from the Mayor, transmitting a communication from the Comptroller, with the First Quarterly Report of the Auditor of Accounts in the Department of Finance, being a detailed statement of all warrants drawn on the City Chamberlain for the Quarter ending March 31, 1873, was received, laid on the table, and five hundred copies ordered to be printed, in document form, by the lowest responsible bidder for the work, under the direction and supervision of the Clerk of the Board.

JOSEPH C. PINCKNEY,
Clerk.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,

April 5th, 1873.

Hon. WILLIAM F. HAVEMEYER, *Mayor.*

SIR:—In conformity with the provisions of law contained in Section 35, Chapter 574, Laws of 1871, I herewith transmit a statement in detail of all accounts audited and allowed by the Department, on account of the City of New York, for the Quarter ending March 31st, 1873, and for which warrants have been drawn upon the Chamberlain.

Very respectfully,

ANDREW H. GREEN,
Comptroller.

MAYOR'S OFFICE,
NEW YORK, April 14th, 1873.

*To the Honorable the Common Council
of the City of New York.*

GENTLEMEN:—I herewith transmit to your Honorable Body the accompanying communication from the Comptroller, with the statements to which it refers.

W. F. HAVEMEYER,
Mayor.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
April 5th, 1873.

SIR:—Herewith is submitted a statement in detail of all accounts audited and allowed on City and Trust Accounts, for which warrants upon the Chamberlain have been drawn during the Quarter ending March 31st, 1873.

Very respectfully,

ABM. L. EARLE,
Auditor of Accounts.

Hon. ANDREW H. GREEN,
Comptroller.
